## DATACARD® ID WORKS® ENTERPRISE IDENTIFICATION SOFTWARE

### Powerful, modular platform

With separate packages for design and production, Datacard ID Works Enterprise identification software lets you distribute tasks effectively and pay only for the features you need at each workstation. Modular components include:

- **ID Works Enterprise Designer** facilitates the design of cards and reports, as well as production forms with binary fields and event handler-based button fields. Connects to databases and directory services.
- **ID Works Enterprise Production** captures images and biometric templates. Manages production of cards and reports. Handles data storage, including non-displayable binary data.

## A SOPHISTICATED SOFTWARE SOLUTION FOR PROFESSIONAL ID PROGRAMS

Datacard® ID Works® Enterprise identification software provides powerful, user-friendly tools for card design, secure card production and flexible management of complex, integrated ID programs.

- **Biometrics and smart cards.** The software offers smart card support (proximity plug-in) to simplify smart card personalization management. You can also design multi-application smart card programs with the ID Works Software Developer's Kit.
- **Intuitive design tools.** Enterprise software enables you to design cards, reports and production forms with speed and simplicity. Shape drawing, transparent backgrounds and ghost images help customize cards. The application lets you integrate production forms with ODBC-compliant, multiple-table databases. Enterprise Designer software also allows you to access ID information stored in a directory service via the Lightweight Directory Access Protocol (LDAP).
- **Enhanced operational productivity.** Simple, powerful interfaces make it easy to capture images, enter and retrieve data and print cards and reports. The Education Support Pack includes SASI and Lifetouch plug-ins for easy image import and export. Enterprise Production software also offers enhanced password security for tighter control over user access.

## DATACARD ID WORKS ENTERPRISE IDENTIFICATION SOFTWARE

### Standard Features

#### Flexible card, report and production form design

User-defined card size (CR50, CR80, Custom)  
Auto-create production form  
Shape drawing support  
Font sizing and colors  
Multiple field selection, alignment and formatting  
Copy card and report designs between projects

#### Field types

Variable text (with masking); Static text (with word wrap option); Photo (with border, ghost or transparent background option); Date; Bar code (22 types, including PDF417 binary support); Magnetic stripe; Static and variable graphic (with ghost and transparent color options); Non-printable area; List; Composite; Print count; Auto sequence; Signature; Smart card; Binary field; Event button; PDF417 binary bar code support

#### Image management

In-production image import and export (.BMP, .EPS, .JPG, .PCT, .PCX, .PNG, .PSD, .TGA, .TIF, .WMF)  
Image and signature storage as BLOBs or files  
Multiple images per record  
Crop and adjust existing photo  
Batch import/export photos and images from production

#### Production and data management

Data-driven production  
Supports multiple-table databases  
Supports Software Developer's Kit

Proximity card plug-in  
SASI and Lifetouch plug-ins  
Auto-create Microsoft® Access 2000 database

#### Database management

Quick, advanced and stored searches  
Retrieve records from "today"  
Retrieve records from "this week"

#### Database support

Oracle® Oracle8i, Oracle9i and Oracle10g®  
LDAP-compliant directory services (such as Microsoft® Active Directory®)  
Microsoft Access 2000 and later  
Microsoft® SQL Server™ 2000 and 2005  
IBM® DB2® Universal Server 7.1 and 8.1

#### Help features

Online user's guide  
Online help  
Help desk support

#### Security features

Wizard for managing user account privileges  
USB hardware security key  
Application- or activity-level user security (per computer or system-wide)  
Login timeout feature  
Restrict project access by user  
Secure user audit trail  
Enhanced user password security  
Expiration of password after user-defined number of days

#### Compatible with the extensive line of Datacard® card printers

#### Image capture options

File input  
Datacard® Tru™ Photo solutions  
TWAIN capture devices  
Video for Windows capture devices  
Datacard Tru Signature solution  
ID Works Visitor Manager solution

#### System Requirements

##### Operating system

Microsoft® Windows® 2000, XP or Windows Vista®

##### Web browser

Internet Explorer v6.0 or later

##### Memory

512 MB RAM  
100 MB hard disk space for application (not including database)

##### Color

16-bit color (65,536 colors)  
(Cameras may require higher color)

##### Resolution

800 x 600 screen resolution (1024 x 768 recommended)

##### Peripherals

CD-ROM drive  
Available USB port
