Datacard® IDCentre™ Bronze Identification Software

IDCentre Bronze identification software offers a smooth migration path to the Silver and Gold editions, so you can take advantage of more advanced features at any time.

Basic features for start-up ID programs

Datacard® IDCentre™ Bronze identification software includes everything you need to create and maintain a start-up ID program. This easy-to-use package offers intuitive, versatile tools for designing ID cards and reports, as well as flexible capabilities for card creation, image handling, database creation and program administration.

User-friendly software, productive capabilities

- Create dynamic card designs using shape drawing, wrapped text and photos with border, ghost and transparent background options.
- Restrict project access by user and create secure user audit trails.
- Retrieve and incorporate information from a Microsoft® Access database, encode magnetic stripes and print bar codes.
- Leverage the functionality of IDCentre software by integrating it with a Datacard® CP40™ Plus, CP60™ Plus or CP80™ Plus card printer.
- Use the Datacard® IDCentre™ View software for view-only access to your database, which makes it easy to add visual verification checkpoints.

Datacard® IDCentre™ Bronze Identification Software

Static text

Photo (with border, ghost or transparent background option)

Variable text

Bar code

Magnetic stripe

IDCentre Bronze identification software offers core tools and has an easy migration path to more advanced capabilities in the IDCentre family.
