# photo id cards

ID Solutions produce photo IDs on a brilliant full colour, highly durable PVC card. The incorporation of your logo as a prominent feature of the identification card projects a positive company image wherever it is worn. Designs can incorporate your company's logo and colours, include a title, signature, employee number etc. We offer a professional in-house design service, at a modest cost.

## Membership and Loyalty cards

In the past high set up costs have been a barrier to many organisations and clubs trying to offer their members or clients cards of a professional standard. ID Solutions membership and loyalty cards are of a quality previously only the domain of the largest clubs and organisations. We are able to cater for organisations requiring small runs right through to 100,000 + cards.

# membership + loyalty cards
