photo id cards

ID Solutions produce photo IDs on a brilliant full colour, highly durable PVC card. The incorporation of your logo as a prominent feature of the identification card projects a positive company image wherever it is worn. Designs can incorporate your company's logo and colours, include a title, signature, employee number etc. We offer a professional in-house design service, at an affordable cost.

Large format ID Cards

These brilliant full colour ID cards are perfect for Stadiums etc that require an extra large credential, made from Teslin and laminated both sides, they are water resistant and extremely durable. As the information is under the surface of the laminate, the print cannot be scratched off. These are the type of cards often seen at major sporting events such as the Olympics or World Cup Rugby. We have a 2 - 3 week lead time for this product.

membership + loyalty cards

Membership and Loyalty cards

ID Solutions membership and loyalty cards are of a quality previously only the domain of the largest clubs and organisations. We are able to produce small runs right through to 100,000+ cards.
